REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The examiner notes the Instant Application 09/216,985 is found allowable per the decision rendered by the Board of Patent Appeals and Interferences on 2/27/2012.

Therefore the examiner notes that independent claims 1, 23, 26, 28, and 29 are found to be allowable. The examiner further notes dependent claims are allowable based on their dependency to their respective independent claims.

Therefore, the examiner notes independent claims 1, 23, 26, 28, and 29 were not found to be taught, disclosed, or suggested alone or in combination within the prior art:

Claim 1

A computer-implemented decision management process for evaluating a customer of an organization having more than one account, comprising:

loading all customer and account data required for evaluating the customer and each of the accounts into a computer of a decision management system;

evaluating the customer and each of the accounts via an iterative function which uses the loaded customer and account data by a computer of the decision management system, wherein said evaluating determines which strategy of a plurality of strategies will be used to evaluate each account via the iterative function based on a type of the account, and evaluates each account for a same product or service via the iterative function with the same strategy and evaluates accounts for different products or services via the iterative function with different strategies, to thereby produce a respective decision for each of the accounts, the loaded customer and account data

Art Unit: 3627

being loaded at a time prior to initiating said evaluating and being sufficient to evaluate the customer and each of the accounts by said evaluating without loading additional customer or account data, the customer and each of the accounts thereby being evaluated in a single pass via the iterative function; and

taking an action in accordance with a result of said evaluating.

The examiner notes the emphasized limitation's allowability is based on the decision rendered by Board of Patent Appeals and Interferences on 2/27/2012 in combination with the other limitations found in independent claims, thus, this claim is found to be allowable over the prior art of record.

Similar rationale is applied to claims 23, 26, 28, and 29, thus, allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ASFAND SHEIKH whose telephone number is (571)272-1466. The examiner can normally be reached on 9a-5p.
